PROFESSIONAL LAND SURVEYOR ALBERTA

Universal Geomatics Solutions Corp. is currently seeking a Professional Land Surveyor to join our team. The working location will be dependent on successful candidate.

The Professional Land Surveyor is the primary point-person responsible for client liaison, planning, executing, and delivering land survey projects on time, within budget, and in accordance to specifications. To achieve these important goals, the Professional Land Surveyor will define project requirements and scope, acquire project resources, calculate and perform plan checking while working with field crews and sign off on the final documentation. The Professional Land Surveyor will have the additional responsibilities of practicing Land Surveying to the highest standard by the guidelines of the governing Land Survey Association.

Opportunity

- First point of contact with clients and works closely with them in regards to scope and schedule of work.
- Provide project coordination, support, and analysis in conjunction with various departments to supply required drawings or data.
- Check survey plans in accordance with regulations and standards set by all of the applicable governing legislation, bylaws and industry standard practices.
- Check and confirm all information shown on the client's deliverables is correct and suitable.
- Analyze changes and enhancements to applications and determine their impact on existing production systems.
- Signing statutory plans and affidavits.
- Participates regularly and actively in all aspects of the health and safety program as outlined by the health and safety department.
- Perform additional assignments and responsibilities as required.

Requirements

- Alberta Land Surveyor designation required.
- British Columbia Land Surveyor designation would be considered an asset.
- Regulatory experience required.
- Minimum 5 years' pipeline construction experience required.
- Minimum 10+ years' direct work experience in project management.
- Highly effective negotiation, diplomatic, and conflict resolution skills.
- Exceptional interpersonal skills.
- Ability to effectively communicate with all staff and clients.
- Experience using Microsoft Projects is considered an asset.

Company Benefits

- Outstanding work environment that fosters safety, encourages teamwork, and challenging work opportunities.
- Career and personal development opportunities.
- Comprehensive benefits package, which includes extended health, dental care, insurances (STD, LTD, Life, and AD&D), employee assistance program, and RRSP matching.
